

December Fly Out

The December Fly Out for the Aviation Club went to Amelia Island (FHB) on Thursday the 16th. Originally, the fly out was scheduled for Monday the 13th but strong winds and moderate turbulence all along the route kept at the planes in the hangers or on the ramps tied down. Of the six scheduled planes and twelve participants scheduled to participate, two planes and three hardy souls made the trip.

Participants included new club member Calvin Sproule flying his RV-8 and Jack Sample and Brian Mullady flying a Piper Archer. Those of us who participated were treated to excellent flying conditions and a great lunch. We've attached a few photos of the planes and the lunch, enjoy.

Details of the January Fly Out will be finalized in time for the January club meeting on the 3rd. High likelihood we'll be heading to Sebring for the **U.S. Sport Aviation Expo 2011 January 21 – 23rd**. We look forward to you joining us for the day. Passengers and pilots welcomed.
