St. Augustine (SGJ)

Once again the Villages Aviation Club experienced a great day for flying. In aviation terms, it was CAVU (Ceiling And Visibility Unlimited) with very light winds. Six aircraft and thirteen club members and guests visited St. Augustine for the second time. The FBO, Galaxy Aviation, did a great job of meeting, and parking the airplanes, escorting us to see some super aircraft including P-51, Corsair, T-33's, and L-39's. The photos show some of the aircraft. Before flying home, the group enjoyed a New Orleans style lunch at Harry's and a walking tour of the old city.

Those making the flight included:

Don Field Pilot, Cessna 172
Bernie Baker Passenger

Brian Mullady Pilot, Cessna 172
Lee Carnahan Passenger

Don Sharnhorst Pilot, Piper Archer
Joe Storey Passenger

Lloyd Sorenson Pilot, Cessna 172
Dick Oliver Passenger
Dale Buss Passenger

Randy West Pilot, Piper Warrior
Brittany West Passenger

Marty Edelman Pilot, Trinidad
Gene Laskowitz Passenger

Most aircraft headed for the coast and used the Atlantic coastline as a scenic route to the airport. It will probably be an annual event.

Thanks,
Brian Mullady
